WASHINGTON: 1971

INTRODUCTION

On the 14 rolls of this microfilm publication are reproduced 105 bound volumes containing two series of military bounty land warrants issued between 1815 and 1858 to veterans of the War of 1812, and four volumes of indexes to the warrants.

Military bounty land warrants were certificates issued to eligible veterans giving them rights to free land in the public domain. Applications for warrants were processed by a succession of administrative units of the War Department until 1849. In 1841 the Secretary of War placed the responsibility for bounty land matters with the Pension Office, which was transferred in 1849 from the War Department to the newly created Department of the Interior. A warrant was redeemable at any local office of the General Land Office (GLO), the agency of the Treasury Department that was in charge of disposition of public lands. Like the Pension Office the GLO was transferred to the Department of the Interior in 1849.

The first series of warrants resulted from acts passed December 24, 1811 (2 Stat. 669), January 11, 1812 (2 Stat. 672), and May 6, 1812 (2 Stat. 729), in which Congress provided that noncommissioned officers and soldiers serving for 5 years (unless discharged sooner), or their heirs, would be entitled to 160 acres of land from the public domain in partial compensation for military service. A total of 6 million acres of land were to be surveyed and reserved for this purpose, 2 million acres in each of the Territories of Michigan, Illinois, and Louisiana (present-day Arkansas).

The second series resulted from an act of December 10, 1814, by which Congress doubled the acreage offered to soldiers enlisting after that date (3 Stat. 147). Warrants issued under the act were called Double Bounty Warrants.

The Secretary of War was authorized by the above acts to issue military bounty land warrants to eligible veterans. Unlike other military bounty land warrants issued by the United States, warrants issued under these acts could not be transferred or "assigned" to another person, except by inheritance. In addition, warrants were not actually delivered to the veteran, but were retained by the GLO. The veteran received a document of notification attesting that a warrant had been issued in his name. Two series of GLO copies of notifications, which are further discussed below, are part of the National Archives.

Because of unfavorable surveyors reports concerning the land reserved in Michigan, Congress passed an act in 1816 authorizing the survey of 1½ million additional acres in Illinois and 500,000 acres in Missouri to be distributed to War of 1812 veterans instead of land in Michigan (3 Stat. 332). It was not until 1842 that Congress removed the requirement that warrants be used to locate (select a site) in one of the three reservations prescribed by the act of May 6, 1812, and modified by the act of 1816. Under the 1842 act a veteran could use his warrant to choose land anywhere in the public domain open to private entry (5 Stat. 497). The prohibition against assigning these warrants was continued under the act of 1842 and was not rescinded until 1852 (10 Stat. 3).

The warrants reproduced in this microfilm publication are originals from both series, with two exceptions. First, warrants 1 to 2519 under the act of 1812 (160 acres) and warrants 1 to 79 under the act of 1814 (320 acres) were detached from the volumes and are now included in the two series of notifications mentioned above. For these warrants the record kept on stubs remaining in the volumes is reproduced. The information on the stubs includes warrant number; veteran's name, rank, and regiment; and in many cases date of location and the citation from the Abstracts of Military Bounty Land Warrant Locations. The Abstracts, which were kept by the GLO, are chronological lists of locations of sites for which patents (documents conveying title to land) were granted on the basis of bounty land warrants.

The second exception is that warrants 27116 to 28085 under the act of 1812, and warrants 1077 to 1101 under the act of 1814, are neither in bound volumes nor in the two notification series, and their location, if they have not been destroyed, is unknown. In the case of warrants 27116 to 28085 under the 1812 act, copies from Records of the Veterans Administration, Record Group 15, have been filmed.

The warrants contain the following information: (1) name of the veteran; (2) his rank on discharge from military service; (3) his company, regiment, and branch of service; (4) date the warrant was issued; and (5) usually the date the land was located and the page on which the location is recorded in Abstracts of Military Bounty Land Warrant Locations. They are arranged according to warrant number and are in chronological order. For warrants appearing in this microfilm publication, issue dates of the first series (act of 1812, 160 acres) extend from August 19, 1815, to June 2, 1858, and for the second series (act of 1814, 320 acres) from August 23, 1815, to April 1, 1839.

Four indexes, applying to both series, have been included on roll 1. They are (1) "Alphabetical Index of Missouri Patentees," in which entries are arranged alphabetically by name of patentee and include date of patent, warrant number, warrantee's military rank, company in which he served, and legal description of the land (in terms of township, range, section, and fraction of section); (2) Index of Arkansas Patentees, in which entries are arranged alphabetically by first letter of surname of patentee and contain GLO patent book citation (the patent books remain in the custody of the Bureau of Land Management, successor agency to the GLO), legal description of the land, and warrant number; (3) Partial Index of Illinois Patentees, containing entries only for those whose surnames begin with letters "C" and "D," each entry including the veteran's name, company and regiment of service, warrant number, and Abstract citation; and (4) Index of Patentees Under the Act of 1842, in which entries are arranged alphabetically by first two letters of surname of patentee and include GLO patent book citation, legal description of the land, and warrant number.

No complete index of Illinois patentees has been found among the GLO records. For any bounty land reservation, if the date (at least the month and year) of the location of the land and the State in which it was located can be determined, the warrant number and information about the veteran can usually be found in the Abstracts of Military Bounty Land Warrant Locations. For Illinois, a resolution of the U.S. House of Representatives on April 6, 1839, required the GLO to prepare a list of names of veterans to whom patents were issued for land in the Military Bounty Land District in Illinois for service in the War of 1812. The list, taken from the Abstracts, was transmitted to the House July 21, 1840, and published as H. Doc. 262, 26th Cong., 1st sess. The entries are arranged by date of patent and include name of patentee, warrant number, rank of patentee, corps or regiment of service, legal description of the land, name and place of residence of the person to whom the patent was delivered, and delivery date. This published document is available in most large libraries.

The land entry papers of the GLO, of which the indexes and most warrants copied in this microfilm publication are a part, are among records in the National Archives designated as Records of the Bureau of Land Management, Record Group 49. The records reproduced in this publication are in the General Archives Division, located in the Washington National Records Center. This record group also includes the two series of notifications referred to above, which are identified as "Military Bounty Land Warrants, 160 acres, Act of 1812," and "Double Bounty Warrants, 320 acres, Act of 1812." As previously indicated, a number of early warrants issued under these acts were detached from the volumes and are deposited with the notifications. Some War of 1812 veterans, including both commissioned officers and noncommissioned officers and soldiers, received warrants under acts of 1850 (9 Stat. 520), 1852 (10 Stat. 3), and 1855 (10 Stat. 701), which were general acts applying to veterans of several wars. Warrants issued under these acts are not included in this publication.

A file of warrants duplicating the GLO sets was kept by the

Bureau of Pensions and is now in the National Archives as part of Records of the Veterans Administration, Record Group 15. The Bureau of Pensions in 1930 was made part of this newly created agency. Some of these copies have been included in this microfilm publication to fill a gap in the GLO sets. This record group also includes a series of volumes identified as "Records of Land Warrants, Act of 1812," which serves as an additional index to the warrants. Entries in the volumes are arranged alphabetically by first letter of surname of warrantee and thereunder by regiment, and include warrant number, number of acres received (160 or 320), name of original claimant, and company with which he served.

The records reproduced in this microfilm publication were prepared for filming by Edwin D. Anthony, who also wrote these introductory remarks and provided the other editorial material.

WAR DEPARTMENT.

An Act to provide for designating, surveying, and granting the Military Bounty Lands.

BE it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the President of the United States be, and he is hereby, authorised to cause to be surveyed a quantity of the Public Lands of the United States, fit for cultivation, not otherwise appropriated, and to which the Indian title is extinguished, not exceeding in the whole six millions of acres; two millions to be surveyed in the territory of Michigan, two millions in the Illinois territory, north of the Illinois river, and two millions in the territory of Louisiana, between the river St. Francis and the river Arkansas: the said lands to be divided into townships, and sub-divided into sections and quarter sections, (each quarter section to contain, as near as possible, one hundred and sixty acres) in the manner prescribed by law for surveying and sub-dividing the other Public Lands of the United States; the same price to be allowed for surveying as is fixed for surveying the other Public Lands in the same territory. And the lands thus surveyed, with the exception of the Salt Springs and Lead Mines therein, and of the quantities of land adjacent thereto, as may be reserved for the use of the same, by the President of the United States, and the section No. 16, in every township, to be granted to the inhabitants of such township, for the use of Public Schools, shall be set apart and reserved for the purpose of satisfying the bounties of one hundred and sixty acres, promised to the non-commissioned officers and soldiers of the United States, their heirs and legal representatives, by the act, entitled "An act for completing the existing military establishment," approved the 24th day of December, one thousand eight hundred and eleven; and by the act, entitled "An Act to raise an additional military force," approved the 11th day of January, one thousand eight hundred and twelve.

Sec. 2. *And be it further enacted*, That the Secretary for the Department of War, for the time being, shall, from time to time issue warrants for the military land bounties, to the persons entitled thereto, by the two last mentioned acts, or either of them: *Provided always*, that such warrants shall be issued only in the names of the persons thus entitled, and be by them or their representatives applied for within five years after the said persons shall have become entitled thereto; and the said warrant shall not be assignable or transferable in any manner whatever.

Sec. 3. *And be it further enacted*, That every person in whose favor such warrant shall have been issued, shall on delivery of the same, at the office of the Secretary of the Treasury, or of such other officer as may at the time have, by law, the superintendence of the General Land Office of the United States, at the seat of government, be entitled to draw by lot, in such manner as the officer at the head of the Land Office, under the direction of the President of the United States, may prescribe, one of the quarter sections, surveyed by virtue of the first section of this act, in either of the said territories, which the person in whose favor such warrant has issued, may designate; and a patent shall thereupon be granted to such person, for such quarter section, without requiring any fee therefor.

Sec. 4. *And be it further enacted*, That no claim for the military land bounties aforesaid, shall be assignable or transferable, in any manner whatever, until after a patent shall have been granted, in the manner aforesaid. All sales, mortgages, contracts or agreements, of any nature whatever, made prior thereto, for the purpose or with intent of alienating, pledging, or mortgaging any such claim, are hereby declared, and shall be held, null and void; nor shall any tract of land, granted as aforesaid, be liable to be taken in execution, or sold on account of any such sale, mortgage, contract, or agreement, or on account of any debt contracted prior to the date of the patent, either by the person originally entitled to the land, or by his heirs or legal representatives, or by virtue of any process or suit at law, or judgment of court against a person entitled to receive his patent as aforesaid.

H. CLAY,
Speaker of the House of Representatives.

WM. H. CRAWFORD,
President of the Senate, pro tempore.

May 6, 1812.—APPROVED,

JAMES MADISON.

From the provisions of the foregoing Act, it is manifest that no Patent can issue until the Warrant is presented to the Commissioner of the Land Office. It is, therefore, the interest of the Persons entitled to Military Lands, that their Warrants should, immediately after they are issued, be deposited in the Office from whence their Patents are to be obtained. This course will preserve

Hon. T. W. Thompson
S. U. S.

the from the various accidents to which they may be subjected in the hands of the Owners or A nts who may have been authorised to obtain them. It is also manifest that all Contracts for the e of, or incumberance upon, these Lands, prior to the issuing of the Patent, are illegal and void. s it is impossible that Persons possessed of Powers of Attorney for obtaining Military Land Warrants, can have any legitimate interest distinct from their Principals, Warrants hereafter issued will be deposited in the General Land Office; and a Certificate of that Act will be given to such Attorneys, if required. A Copy of this proceeding will be forwarded to every Person in whose name a Warrant shall issue,—not only to counteract any misrepresentations of the object of this Regulation, but to place the Soldiers of the late Army upon their guard against the devices which have already been, or may hereafter be, practised by unprincipled and designing men, to deprive them of the Reward which is so justly due to their meritorious services.

Land Warrants will continue to be issued at the War Department, upon the presentation of the ORIGINAL "HONORABLE DISCHARGE," which will remain there upon File, as heretofore; but no other document will be required to accompany it, excepting the address of the original Claimant, in order that he may be duly notified of *the number* and *date* of the Land Warrant that will issue in his name.

In cases where *the Original Claimants* are dead, "THE LEGITIMATE HEIRS AT LAW" must substantiate their claims conformably to the Regulations now in use.

February 16th, 1816.

N. B. The preceding regulations are intended to apply equally to Land Warrants that will be issued for the *double Bounty*, conformably to the 4th section of the act of the 10th of December, 1814.

WAR DEPARTMENT.

SECTION OF BOUNTY LANDS.

To { Elizabeth Willard & the other Heirs at Law of Thomas Thompson Willard, dec. —

—Pursuant to the Law of the United States, of the 6th of May, 1812, appropriating certain Tracts of Land, to satisfy the Claims of the Non-Commissioned Officers and Privates of the late Army, and in conformity with the preceding Regulations, you are hereby notified that the Land Warrant No. 9063 has been issued in your name, under date 1. March 1817 and will be deposited in the GENERAL LAND OFFICE, at the Seat of Government, where the Patent must issue—there to await your order for its location, which may be made so soon as the survey of the appropriated Lands can be effected; public notice of which will be given in all the Newspapers authorised to publish the Laws of the United States.

WAR DEPARTMENT.

An Act to provide for designating, surveying, and granting the Military Bounty Lands.

BE it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the President of the United States be, and he is hereby, authorised to cause to be surveyed a quantity of the Public Lands of the United States, fit for cultivation, not otherwise appropriated, and to which the Indian title is extinguished, not exceeding in the whole six millions of acres; two millions to be surveyed in the territory of Michigan, two millions in the Illinois territory, north of the Illinois river, and two millions in the territory of Louisiana, between the river St. Francis and the river Arkansas: the said lands to be divided into townships, and sub-divided into sections and quarter sections, (each quarter section to contain, as near as possible, one hundred and sixty acres) in the manner prescribed by law for surveying and sub-dividing the other Public Lands of the United States; the same price to be allowed for surveying as is fixed for surveying the other Public Lands in the same territory. And the lands thus surveyed, with the exception of the Salt Springs and Lead Mines therein, and of the quantities of land adjacent thereto, as may be reserved for the use of the same, by the President of the United States, and the section No. 16, in every township, to be granted to the inhabitants of such township, for the use of Public Schools, shall be set apart and reserved for the purpose of satisfying the bounties of one hundred and sixty acres, promised to the non-commissioned officers and soldiers of the United States, their heirs and legal representatives, by the act, entitled "An act for completing the existing military establishment," approved the 24th day of December, one thousand eight hundred and eleven; and by the act, entitled "An Act to raise an additional military force," approved the 11th day of January, one thousand eight hundred and twelve.

SEC. 2. *And be it further enacted*, That the Secretary for the Department of War, for the time being, shall, from time to time issue warrants for the military land bounties, to the persons entitled thereto, by the two last mentioned acts, or either of them: *Provided always*, that such warrants shall be issued only in the names of the persons thus entitled, and be by them or their representatives applied for within five years after the said persons shall have become entitled thereto; and the said warrant shall not be assignable or transferable in any manner whatever.

SEC. 3. *And be it further enacted*, That every person in whose favor such warrant shall have been issued, shall on delivery of the same, at the office of the Secretary of the Treasury, or of such other officer as may at the time have, by law, the superintendence of the General Land Office of the United States, at the seat of government, be entitled to draw by lot, in such manner as the officer at the head of the Land Office, under the direction of the President of the United States, may prescribe, one of the quarter sections, surveyed by virtue of the first section of this act, in either of the said territories, which the person in whose favor such warrant has issued, may designate; and a patent shall thereupon be granted to such person, for such quarter section, without requiring any fee therefor.

SEC. 4. *And be it further enacted*, That no claim for the military land bounties aforesaid, shall be assignable or transferable, in any manner whatever, until after a patent shall have been granted, in the manner aforesaid. All sales, mortgages, contracts or agreements, of any nature whatever, made prior thereto, for the purpose or with intent of alienating, pledging, or mortgaging any such claim, are hereby declared, and shall be held, null and void; nor shall any tract of land, granted as aforesaid, be liable to be taken in execution, or sold on account of any such sale, mortgage, contract, or agreement, or on account of any debt contracted prior to the date of the patent, either by the person originally entitled to the land, or by his heirs or legal representatives, or by virtue of any process or suit at law, or judgment of court against a person entitled to receive his patent as aforesaid.

H. CLAY,
Speaker of the House of Representatives.

WM. H. CRAWFORD,
President of the Senate, pro tempore.

May 6, 1812.—APPROVED,

JAMES MADISON.

From the provisions of the foregoing Act, it is manifest that no Patent can issue until the Warrant is presented to the Commissioner of the Land Office. It is, therefore, the interest of the Persons entitled to Military Lands, that their Warrants should, immediately after they are issued, be deposited in the Office from whence their Patents are to be obtained. This course will preserve

them from the various accidents to which they may be subjected in the hands of the Owners or Agents who may have been authorised to obtain them. It is also manifest that all Contracts for the Sale of, or incumberance upon, these Lands, prior to the issuing of the Patent, are illegal and void. As it is impossible that Persons possessed of Powers of Attorney for obtaining Military Land Warrants, can have any legitimate interest distinct from their Principals, Warrants hereafter issued will be deposited in the General Land Office; and a Certificate of that Act will be given to such Attorneys, if required. A Copy of this proceeding will be forwarded to every Person in whose name a Warrant shall issue,—not only to counteract any misrepresentations of the object of this Regulation, but to place the Soldiers of the late Army upon their guard against the devices which have already been, or may hereafter be, practised by unprincipled and designing men, to deprive them of the Reward which is so justly due to their meritorious services.

Land Warrants will continue to be issued at the War Department, upon the presentation of the Original "Honorable Discharge," which will remain there upon File, as heretofore; but no other document will be required to accompany it, excepting the address of the original Claimant, in order that he may be duly notified *of the number* and *date* of the Land Warrant that will issue in his name.

In cases where *the Original Claimants* are dead, "THE LEGITIMATE HEIRS AT LAW" must substantiate their claims conformably to the Regulations now in use.

February 16th, 1816.

N. B. The preceding regulations are intended to apply equally to Land Warrants that will be issued for the *double Bounty*, conformably to the 4th section of the act of the 10th of December, 1814.

WAR DEPARTMENT.

SECTION OF BOUNTY LANDS.

To Mr James Ricks

SIR—Pursuant to the Law of the United States, of the 6th of May, 1812, appropriating certain Tracts of Land, to satisfy the Claims of the Non-Commissioned Officers and Privates of the late Army, and in conformity with the preceding Regulations, you are hereby notified that the Land Warrant No. 9829 has been issued in your name, under date 26 May 1817 — and will be deposited in the General Land Office, at the Seat of Government, where the Patent must issue—there to await your order for its location, which may be made so soon as the survey of the appropriated Lands can be effected; public notice of which will be given in all the Newspapers authorised to publish the Laws of the United States.
